

ANSWERS THE INJUNCTION.

Recruiting the Posse of 2,500 Men
Progressing Smoothly.

MILITARY MEN DRILL THEM.

St. Louis, June 4.—Former Governor William J. Stone is preparing the answer of the street railway union to the injunction proceedings instituted in the federal court some time ago. In a portion of the answer Governor Stone contends that there is no statute authorizing such an injunction as is prayed for in the United States court. In the answer the street railway union denies that it is responsible for stoppage of mails, obstruction on tracks, wire cutting and violence.

The swearing in of the posse of 2,500 citizens to aid the police department is progressing smoothly, nearly 500 men having been secured. The force will be organized into squads of fifty each. As the force increases the number of squads will be increased and more will be added to them. Men of known military ability and qualifications have been secured to drill and command the various companies.

London, June 5.—The Boer military power is now completely broken and the war is practically over, although the complete occupation of the country will take some time.

President Kruger may form a band at Lydenburg, which, however, can do no great harm, as General Buller will move up to Delagoa Bay railway and stop Kruger's supplies. So soon as the British have all the railways, flying columns will quickly make an end to all great opposition and the Lydenburg region can be dealt with at leisure.

On one thing the British government is determined, i. e., President Kruger cannot stay in the Transvaal. In the event of his capture he must be transported, not necessarily in duress; but he must be got out of the territory which Lord Salisbury expects will shortly be part of the British empire. Every effort will be made to capture President Kruger, but the government officials are inclined to believe he will get into Portuguese territory where the British will be unable to touch him.

Virginia Towns Undermined.
Newport News, Va., June 5.—A civil engineer here, Mr. Guild, believes that Virginia peninsula is fast being undermined by the action of the water of Hampton Roads. His theory is that the peninsula, including the city of Newport News and the towns of Williamsburg, Hampton, Phoebus, Old Point and Fort Monroe, is now afloat at high tide. In digging sewer trenches he found water that rose and fell with the tide. The foundation of the new Bank of Hampton, of about eighteen inches or two feet of solidified matter, in one rise of the tide was cracked from one end to the other.

Combine of Sugar Concerns.
New York, June 5.—The National Sugar Refining company, of New Jersey, has been incorporated in Jersey City. The new company is a combination of the National, Mollenhauer and Doscher companies. The stock is divided into \$10,000,000 common and \$10,000,000 preferred stock.

Beaten by Men and Women.
Galena, Kas., June 5.—S. L. Cheney, of Galena, was badly beaten by three men and two women at his farm. Mr. Cheney's assailants used clubs and his head is covered with gashes. Mr. Cheney was at one time very active in Kansas politics and is known all over the state.

Illinois Town Submerged.
Champaign, Ill., June 4.—The little town of Dewey, near here, sustained heavy damage from a cloudburst. The sidewalks were torn up, many residences were damaged, and the farm fields flooded. The farmers sustained the greatest loss, it is believed, as the corn and oats plants were uprooted by the torrent of rain.

Union Pacific Makes Answer.
Lincoln, Neb., June 5.—Attorneys for the Union Pacific Railroad company have filed an answer with the supreme court to the petition of Attorney General Smyth in the suit brought on behalf of the state, asking for nearly \$500,000 for alleged violations of the maximum freight rate law. The document is a voluminous one, a number of defenses being set up. One is that the corporation is organized under the laws of Utah. It is also claimed that the state supreme court has not original jurisdiction, inasmuch as this is practically a ceremonial suit, and finally it claims that the maximum rate law is unconstitutional.

Report on Insane Soldiers.
Washington, June 5.—Secretary Root sent to the senate a report of the number of soldiers killed and who have died of wounds in the Philippines; also the number of those who have gone insane and have committed suicide since 1890. "Whereby it appears," he states, "that the number of insane cases and the number of suicides have not been increased by service in the Philippines, but remain substantially the same number per thousand as in the period of peace prior to the war with Spain."

CONGRESSIONAL NEWS.

What is Being Done in the Fifty-Sixth General Assembly.
MAY TWENTY-NINE.

The senate received from the president the appointment of R. H. Stackeable, collector of customs for the district of Hawaii. The senate passed the bill authorizing the sale of Choctaw orphans' lands in Mississippi. The resolution was agreed to calling for information as to the leasing of grazing lands in Oklahoma.

Senator Teller's Boer resolution was referred to where it will be buried, by a vote of 40 to 36. The senate voted to continue the life of the industrial commission till October 31, 1901.

The committee on the St. Louis exposition reported a substitute bill framed like the general features of the bill for the Chicago Columbian, with some changes. The commission is put at 9 members instead of 14, as at Chicago. The matter of awards and of lady commissioners is left largely to the local management. The Seminoles treaty was passed and sent to the president.

Mr. Bailey (Ka.) introduced a bill placing 10 per cent additional duties upon all imports from Germany, while the German law levying prohibitory duties on American meat products is in force. The house passed and passed the Alaskan code bill.

There was no session of the senate.

The house passed a bill providing for the opening of the Kiowa and Comanche lands, and a conference was asked for.

The senate committee to investigate Cuban affairs will not visit Cuba until after they have gathered such information from War and Post-office departments as they are seeking for.

Senator Wolcott introduced a bill to divide that work of the geological survey, for which \$85,000 has been expended, was not worth that many cents; but the senate increased the appropriation to \$250,000.

The senate election committee reported adversely on the House joint resolution providing for the election of United States senators by the people. The same committee approved an amendment which would permit elections of senators by a plurality vote in state legislatures. This is to prevent such dead locks as have occurred in Pennsylvania and Montana.

The Chinese commission has got back on the house calendar.

The sundry bill appropriation bill was taken up and the river and harbor items perfected; the amount for work on the Missouri river was left out.

The house refused to accept the senate amendments to the naval bill relating to armor plate, replacing it with a new scheme which provides, conditionally, for the creation of a government plant for making armor plate.

JUNE FIRST.

The conference on the Fort Hill reservation bill, to which the Kiowa and Comanche reservation is attached as a rider, held a long conference and practically all the objections to the rider have been overcome.

The senate held a long debate concerning the banking powers.

The senate cut out the appropriation for Mrs. Daniel Manning and made a special order to consider the Nicaragua canal bill on the second Monday of December next.

The general deficiency bill was then amended variously; one feature being to give one month's extra pay to the senate and house employees.

The sundry bill was sent back to conference by the house.

The Creek and Cherokee treaties were both passed by the house and go to the senate.

The house defeated the anti-trust constitutional amendment, the majority for it being less than the required two-thirds.

JUNE FIFTH.

The senate passed the Cuban extradition bill; also the emergency river and harbor bill providing for surveys and for certain public works. The general deficiency bill was passed.

A general rush was made to get action on various bills by consent, but all met objections. To fill the waiting time Senator Teller talked about the Philippines.

The sundry bill still hangs up in conference with 35 discrepancies.

The house passed the anti-trust bill, amending the Sherman law so as to give the courts jurisdiction, with only one opposing vote. The bill was amended so as not to apply to labor unions.

Christian Scientists Convicted.
Milwaukee, Wis., June 5.—Mrs. Crencenzia Arries and Miss Emma Nichols, two Christian scientists, were found guilty of practicing medicine in violation of the state medical law. In giving his decision Judge Neelen cited the decision of the United States Supreme court in the Mormon case, holding that a man's religion is subordinate to the laws of the land and that he cannot go contrary to the laws of the state. An appeal was taken.

Has no Title to Advertised Lands.
Atchison, June 5.—It is said that the receivers of the Central Branch have discovered that they have no title whatever to any of the land in Atchison county which they recently offered for sale, and that titles have been produced to all but three acres of the Jackson county land advertised. In Brown county, the company is said to have a claim on 160 acres, but a valid deed will probably be sprung to it before the sale, which is advertised to take place at the Atchison court house next Thursday.

Surplus During May.
Washington, June 4.—The monthly comparative statement of the receipts and expenditures of the United States shows that during May, 1900, the receipts aggregated \$45,165,053, and the expenditures \$40,351,525, leaving a surplus for the month of \$4,813,528. The receipts from the several sources of revenue are given as follows: Customs, \$17,396,573; decrease as compared with May, 1899, \$1,000,000; internal revenue, \$23,861,326; increase, \$140,000; miscellaneous, \$3,908,153; increase, \$1,200,000.
